

COFFEE & TEA

A Full Suite of POS Tools for Coffee and Tea Shops

Easy-to-use system, inventory and vendor management, customer loyalty, and more. SumUp's Point of Sale tools can help grow your coffee and tea shop.

Staff Management

Manage staff schedules, track tips, generate payroll reports, and identify improvement areas to streamline operations.

Easily Receive Deliveries

Simplify deliveries and inventory by uploading new or restocked products directly into your POS system.

Track Sales

Track sales by customer, location, and product performance with advanced POS reporting.

Grow Your Business With SumUp Connect

Customer Database

Collect customer information and store it in a centralized database. Track customer orders to understand their preferences and improve their experience.

AI and Automated Marketing

Attract and retain customers by sending personalized messages to new or infrequent buyers and that offer incentives to increase loyalty and sales.

Customer Rewards

Our rewards program gives customers the chance to earn and redeem points. Give first-timers a reason to become regulars!

eCommerce & In-Store Pick Up

SumUp's POS connects online orders to in-store pickup, simplifies inventory and sales management, and unifies payments for seamless operations.
